

## Accommodation Info

This document is found in English at [https://lundenisollentuna.se/tenant\\_info](https://lundenisollentuna.se/tenant_info)

### The balcony project

The first balcony tiles have been cast! The PCB remediation is basically complete. The project is rolling along with minimal delay. It seems that the whole project will be finished in July, and then we can start enjoying the balconies!

### Keep the stairwell clean!

Do you have things in the stairwell, such as a sled, bicycle or pram? If so, remove it! Fire brigade, ambulance and police must be able to move freely if something happens. If it starts to burn, the fire brigade must come through the smoke. If a neighbor falls ill or injures himself, a stretcher must fit in the stairwell.

### Do you have broadband via the city network? Contact the board!

Most people in the house use the internet via ComHem/Tele2. However, some have chosen instead to buy their own broadband via the network socket in the hall. It's called having broadband via the city network. It's time to renew our contract for internet in the house. The board has begun to investigate which variant will be best for all residents. Some of the options would affect you who today have broadband via the city network. Therefore, we want to know who has broadband via the city network.

Contact us on the board!

**Bring motions to the ordinary general meeting** Brf Lunden will conduct the ordinary general meeting on May 23. Invitation comes at the end of April. We accept motions for the general meeting no later than March 28.

We will also hold an extraordinary general meeting in the spring. The aim is to update the statutes so they work well together with new legislation. See separate invitation.

with kind regards, Styrelsen BRF Lunden,
